Subject: Sampling Plans for Review

Attached are the draft sampling plans for your review and comment.

Round 1 SAP Supplemental will cover those 3 homes which were not yet included in the Round 1 Sampling. The analytes will be the same as the other 61 homes, with the exception of Isotech analysis.

Round 2 SAP will cover those 4 homes that will be included in this round of sampling. Only metals (total and dissolved) will be included in this plan.

Please comment back to me as soon as possible. As you can see, we have targeted 5/21 as a contractor mobilization date for this activity. As you know there are several items that need to be accomplished to meet this target. First will be getting your comments and addressing them. Then we will need to be in contact with the residents and make sure they are available during that period. We will also need to coordinate with both PADEP and Cabot in the event of any potential split sampling. I will be back to work on 5/14 and hope to address your comments then and move this process forward. thanks. Rich
